## AMBUJET 20 G FASTENERS

Easy to install and one-click operation

Downtime is the enemy of productivity. That is why AMBUJET is engineered to be easy and fast to install, while minimizing the need for routine maintenance. Thanks to the perfect integration between the fastener and the suction unit, the overall dimensions remain almost identical to those of the suction unit itself.

Quick release button

Two types of fixing

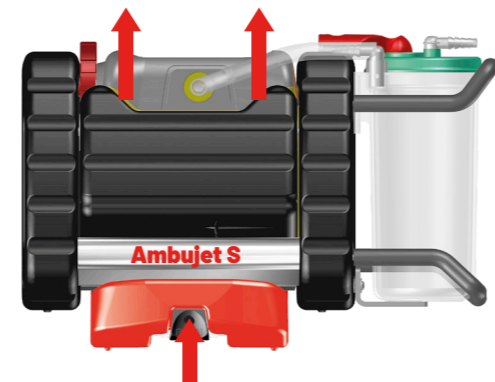

Wall mount

Mount for surface

AMBUJET is the only suction unit on the market which can be connected to the base and operated with one-hand, making such device the best choice for ambulance and special vehicles builders. **AMBUJET is the first electrical suction machine to obtain 20 G UNI EN-1789 Crash Test certificate.** A record that underline our attention towards details and the high technological value of the design.

## DISCOVER THE NEW AMBUJET S WITH 10 G FASTENER

Reliable and interchangeable

Quick release button

Quick release button

Innovation starts with understanding what our customers need and, as a global leader in EMS technologies, **Spencer is anticipating all the challenges of a changing industry.** Thanks to our latest innovation, we create a **new layout for fasteners** which are fully interchangeable between **Ambujet S** and **all NXT ventilators** made by Spencer.

The value of a choice is measured in the future.

## JET COMPACT

Portable compact suction device

- COMPACT
- EASY-TO-USE
- LIGHTWEIGHT

Jet Compact is ideal for use in the emergency field, during transport or in the hospitals. You will be surprised by its compact and lightweight versatility. The device is also appreciated in pre-hospital and homecare sector for its low level of noise and vibrations.

### Unique features

- Only 1.6 kg with high performance
- Compact and easy to fit in an emergency bag
- DO-160 airborne equipment compatibility and NATO stock number coded

**LED display** for use in night or poor weather conditions

**High performance** with intuitive and easy to use controls

**High portability** which allows to be positioned in a rucksack or in an emergency bag

**No tools required** to change the battery

IDEAL CHOICE FOR EMS

## HOMEJET

Portable suction unit

- SHOCK PROOF
- INDESTRUCTIBLE
- STABLE

HomeJet is able to offer a suction capacity that is unmatched in its class. It's the only suction device with fast battery substitution with no tool required. It allows for easy and quick replace of the canister that is directly connected to the suction unit so as to reduce the number of components used and also any repair costs.

### Unique features

- Only 2.4 kg with full canister protection
- Rapid substitution of the battery
- Direct connection between canister and suction device

**High suction capacity** of about 32 liters/minute

**Low level** of noise and vibration

### Standard equipment

- 220 V battery
- Single canister and antibacterial filter
- Disposable patient tube
- 12 V cigarette lighter cable
- Shoulder strap

### Optional accessories

- AC/DC adapter 100/240 VAC 50-60 Hz
- Transport Bag

**Direct device canister connection** to facilitates insertion and substitution of the canister

**Polyethylene shell** to withstand any impact

IDEAL CHOICE FOR HOMECARE

## AMBUJET

Portable suction unit

- 20 G TESTED
- QUICK ASSEMBLY
- CANISTER PROTECTION

Durable, lightweight, stable, compact. In just one word AmbuJet. The only device with an integral indestructible polyethylene shell able to fully protect both the unit and the canister from impact damage, while its wide base makes the device exceptionally stable. AmbuJet is the first suction unit equipped with a certified 20 G fixing.

### Unique features

- Wide base for increased stability
- Time-saving thanks to easy and quick installation
- 20 G crash test certificate

Small and lightweight with **one-hand-grip design**

**Easy conversion** between different canisters

Wide base for **exceptional stability**

### Standard equipment

- 220 V Battery
- Single canister and antibacterial filter
- Disposable patient tube
- Fixing with integrated charging system
- Shoulder strap

### Optional accessories

- AC/DC adapter 100/240 VAC 50-60 Hz
- Transport Bag

**Easy to install** and one-click operation

IDEAL CHOICE FOR AMBULANCE
