

**TWK 33**

## Professional torches

The TWK torches are designed and realized for professionals. During the years they have achieved a very good reputation for high quality and reliability. The same precision technology has been used to realise a new generation of high intensity torches. Each TWK torch is build with aeronautic aluminium.

- High intensity light beam
- Built in aerospace aluminium
- Internal and external anodized finishing that allows high resistance to corrosion
- Perfectly water resistant thanks to the O-ring lining

**TECHNICAL DATA**

Material	Anodized aluminium
Length	100 mm
Diameter	15 mm
Weight (without batteries and case)	20 g
Light	Led
Package	EVA case
Needed batteries	AAA 1,5 V
