

NEC UP

Multi-size paediatric collar

Nec Up cervical collars are devices to be used to help maintain neutral alignment of the cervical spine.

Specific features

- Quick application thanks to the strap closure
- Access for tracheotomy
- Padding to increase comfort
- Rear hole for ventilation and to allow inspections
- Chin support has 3 heights in order to make the device suitable for a wide range of cervical conformations
- The selected size can be easily identified thanks to the red colored marking visible on the front side
- After the size has been selected, the chin support can be easily fixed by pressing the two locking tabs
- Compatible with RX, MRI, TAC ^(Note)

Note: The compatibility is expressed in reference to the use of non-magnetic materials
