

EVA E1

Transport chair

Picture may differ from the actual product

EVA E1 is a chair for transport of patients from the rescue place to the emergency vehicle or to another device intended for ambulance transport.

Specific features

- The foot operated brake applied to the rear wheels, is easy and quick to operate
- Footrest to increase patient comfort
- Front telescopic handles and foldable and lockable rear handles make it easy to lift
- The automatic locking system significantly shortens the storage time
- The integrated carrying handle allows to transport the device in closed position, helping to reach the rescue place faster
- ABS Seat and backrest
- Optional EN 1789 fastener
