

Rock Pin

Spinal board

Rock Pin spine boards are devices designed to lift and immobilize patients with suspected spinal injuries.

Specific features

- The number of handles, their positioning and their shape, allow a firm grip even in difficult conditions
- The tapered shape allows to save space and to place the device inside Spencer basket stretchers
- Dedicated holes and pins to fix belts and Spencer head immobilizers
- Smooth and filleted surfaces to allow easy cleaning
- Robust and lightweight structure to ensure impact resistance
- Allows preliminary X-Ray diagnostics

Technical data

Dimensions	1840 x 445 x 50 mm
Material	Polyethylene
Number of handles	16
Number of pins	14
Load capacity	200 kg
Weight	7,3 ± 0,1 kg
