

Functional modification

## AIR SPLINT AND ECO AIR SPLINT

Inflatable splints

All new supplies of the inflatable splints Air Splint and Eco Air Splint will be delivered with a new coloured zip pull.

They are colour coded with a different colour zip pull to help rapid identification of the size required during emergency procedures.

The bigger dimension and the non slip material of the zip pulls will improve the grip and facilitate zipping up even with working gloves on.

### TECHNICAL DATA

Air Splint arm 370 mm	QS24237A
Air Splint arm 640 mm	QS24264A
Air Splint arm 750 mm	QS24275A
Air Splint leg 400 mm	QS24240A
